Turbotec Highlights Heat Recovery Products at Greenbuild 2008

Turbotec Products, Inc. a world leader in high performance heat exchangers, announces participation at Greenbuild International Conference and Expo 2008 in Boston, Massachusetts. Enviro-Pak Residential/ Light Commercial and Enviro-Temp Commercial Heat Recovery products generate hot water by recycling the waste heat from an air conditioner or refrigeration system. The Return on Investment can be from less than one year to 3 years.

Knowledgeable staff will be on-site to offer information on the flexible applications which currently extend to geothermal and solar venues. The Enviro-Pak and Enviro-Temp Savings calculator, a sophisticated application capable of precise calculations with the capability for the user to input specific data, will be available for visitor use, as well.

“We are genuinely excited about showing at Greenbuild”, said Tom Allen, Outside Sales Manager overseeing Heat Recovery, “Enviro-Pak and Enviro-Temp Heat Recovery products are capable of saving the homeowner, restaurant, hotel or many other facilities a considerable amount, if you factor in how much hot water is used for showers, laundry, washing or anywhere hot water is used. If you want heat recovery done right, these are the guys. Enviro-Pak and Enviro-Temp are high quality, worry-free units. Heat Recovery Products are a natural extension of Turbotec’s Heat exchanger product lines. Highly efficient heat transfer technology is our business.”

The Greenbuild Conference will be held in Boston, Massachusetts from November 19-21, 2008.

Turbotec, a world leader in enhanced heat transfer technology, manufactures a diverse range of high performance heat exchangers for virtually any space conditioning or refrigeration application in the biomedical, geothermal, water heating and heat pump markets. Turbotec tubing offers dramatic increases in heat transfer efficiency- providing up to 4 times the efficiency of smooth tubing and can be shaped into virtually any space saving configuration.

For additional information, contact Turbotec at (860) 731-4212, (800 394-1633 outside of Conn.) or visit us on the web at www.turbotecproducts.com.
