**TURBOTEC PRODUCTS TO DISPLAY ENVIRONMENTALLY FRIENDLY HEAT RECOVERY UNITS
AT AHR EXPO 2008 BOOTH 2136.**
-High performance units provide free hot water by recycling waste heat

Windsor, CT January 8, 2008 - In addition to the entire product line, Enviro-Pak and Enviro-Temp Heat recovery units will on display at this years AHR Expo in NYC.

Enviro-Pak was designed to provide home and business owners the opportunity to responsibly and easily participate in cutting down greenhouse gas emissions while recycling energy and saving money.

Enviro-Temp is a heat recovery unit engineered to provide hot water to industrial or large commercial facilities, refrigeration plants. Enviro-Temp can help to offset carbon emissions from these large establishments.

Both heat recovery units can assist in meeting LEED project goals, are compatible with all commonly used refrigerants including R-22 and the ozone friendly HFC-R410a air conditioning refrigerants and R-134a for refrigeration systems. They are available in stainless steel cabinets.

"Typical pay-back for these high performance heat recovery units can be recouped in as little as 1-3 years.," said Floyd Lewis, director of sales and marketing for Turbotec. " We are proud to offer product lines that can benefit both homeowners and businesses with efficient and environmentally friendly products."

Turbo-Flow coaxial coils (for geothermal or marine applications), Pool-Safe and Chem-Safe heat exchangers will also be available for viewing. Knowledgeable staff will be available to answer questions about our products, opportunities for product representatives, as well as the exciting career possibilities that exist at Turbotec's Windsor, CT location.

Turbotec Products, a world leader in enhanced heat transfer technology, manufactures a diverse range of high performance heat exchangers and flexible connector products for virtually any space conditioning or refrigeration applications in the automotive, biomedical, plumbing, waterheating or aerospace markets. For additional information, contact Turbotec at 860-683-2005 ext. 134 (1-800-394-1633 outside Conn.) or visit us on the web at www.turbotecproducts.com.
